Training Delivery Bureau

Re: Decertification of Reserve Training Modules B and C

Effective July 1, 2000, Reserve Training Modules B and C have been decertified because the Module A, B, C, and D Format has been replaced by the Regular Basic Course - Modular Format. This decertification also includes the following combined courses: Modules A, B, Modules A, B, C, and Modules B, C.

Decertification of these courses does not affect the conditions of certification pertaining to your other POST certified courses.

The P.C. 832 Course will continue to be certified with no changes in course content. However, the term "Module A" will no longer be used to refer to current P.C. 832 Courses. Module D will continue to be a certified course until December 31, 2001.

An overview of the Regular Basic Course - Modular Format is enclosed with this letter.

We appreciate the efforts of you and your training staff in past presentations of these courses. If you have any questions regarding this action, please contact Senior Consultant Frank Decker At (916) 227-3900 or Senior Consultant Izzy Flores at (916) 227-4868.
